COX SAYS LEAGUE IS CURE NEEDED

Tells South Bend Audience Financial and Economic Readjustment Bound Up In League.

High Cost of Living Also Involved in League Issue He Declares.

Believes League Will End All Warfare

(By Associated Press)

South Bend, Indiana, August 19. — National and international financial and economic readjustment, as well as the high cost of living, are bound up in the success of the league of nations, Governor Cox declared here today in addressing a large public gathering. "Our safety, our economic readjustment and our prosperity all are involved in America's making the league a world force," Governor Cox asserted, charging the Republican "senate oligarchy" with responsibility for delay in economic progress and belated reduction of living costs.

The candidate came here today from Columbus and will speak tonight at the Indiana Democratic editors' banquet here.

The position of Democracy is definite and affirmative, said Governor Cox, charging "the reactionary Republican leaders" with being "evasive and hypocritical."

"With the least possible delay after March 4, 1921, our pledge is to enter the league, making such additions as are reassuring and helpful. This will legally end the war; it will help to re-establish credit.

"A call will be made upon our material wealth and our productive skill. What we would otherwise be spending for guns and powder and ships will be applied to our war debt; and above all, we will be happy in the consciousness that war is practically impossible.

"The opposition offers at the very best a prolonged delay. What project it has as a substitute for the league of nations no one knows, or at least no one has ever attempted to describe it or to name it."

In resisting arrest, he said, his underclothing was torn and disarranged and he was unaware the proprietress was in the hall where the struggle occurred. The statement included an apology to the landlady for "some pretty strong language" Watson admitted he had used toward the police.

FARMERS OPERATE MANY ELEVATORS

Approximately 250 Elevators Owned and Operated by Farmers

One of the most important series of farm organizations in Ohio, is the grain elevator companies, according to studies made by H. E. Erdman, of the Department of Rural Economics, Ohio State University.

There are approximately 250 of these elevators now owned and operated by farmers. In most cases local companies were formed, having bought out the grain dealers in small towns and their places of business are now operated by the farmers. In some instances new elevators have been built.

Farmers elevator companies purchase mostly grain, hay and wool. In some cases livestock is also handled, but one of their greatest functions is to furnish such supplies as feeds, coal fertilizer, lime, drain tile, seeds and fencing to farmer.

FOR YOUR PROTECTION

Certain easily recognizable "earmarks" characterize fraudulent investments. Prof. David F. Jordan of New York University boils them down into four main points: (1) Calling attention to large profits being obtained by OTHER concerns in the same field. (2) Stating OPINIONS rather than facts. (3) Using the "hurry-hurry" game—urging the prospective investor to hurry and "get in on the ground floor." (4) PROMISING large profits.

When you are offered an investment that bears any or all of these "earmarks" remember that they are danger signals, and before you invest, investigate.

The securities which we offer have been bought by us only after rigid investigation. When you deal with us you can be certain you are right.

MONSTER CROWD FILLS GROUNDS AT ANNUAL FAIR

Avalanche of Humanity Pours Into Grounds From Radius of Fully Fifty Miles.

Grounds a Mass of Auto Tops — Another Big Crowd Expected Friday.

A veritable avalanche of automobiles bearing thousands upon thousands of people poured into the Fayette County fair grounds. Thursday, beginning soon after day-break and lasting until well into the afternoon, and the afternoon attendance was estimated at upward of 15,000 people.

Every train coming into the city bore an unusually large number of fair goers, and the never ending stream of automobiles pouring through the gates kept the ticket men going in high until late in the afternoon, when they had their first rest. The huge crowd poured over the grounds in never ending waves, visiting friends.

By 10:30 o'clock the crowd was estimated at 8,000 persons, and from that time until 2:30 the streets leading to the entrance gates were jammed with automobiles and pedestrians.

The taxi men did a huge business, as usual, and the system arranged by the police worked without the least bit of confusion, and the smooth surface of the up-town streets aided greatly in preventing accidents.

It was a typical holiday crowd on the grounds, good humor prevailing, and the roar of thousands of voices lifted in good-natured conversation bespoke the big success of the fair from the standpoint of attendance.

Friday's attendance is expected to be ahead of any previous Friday's attendance in recent years.

Nature's Whispered Warnings

No matter how many showers we have, no matter how bright the sun shines, there is more than a hint of the coming of autumn. The evidence of the near approach of the final harvest season, the time of the year when nature prepares for her long winter sleep, when the myriads of insects disappear, somewhere in the great out-of-doors, secure against the cold of winter, when the birds prepared for their long journey to the sunny south lands, is on every hand.

The daylight span, which each twenty-four hour day brings to us, is growing noticeably shorter. Night comes sooner than it did a few weeks ago and morning light is later arriving.

This early autumn season is a wonderful and a glorious time of the year. It has its beauty distinctively its own. It is nature's gentle warning of that time to come when, for a few months, she will not provide for the living things, when men, the beasts and the birds must provide against the coming of the time that nature sleeps.

There is a mystery about it all which charms us into obedience of the demand to make provision for winter. Nature's voice of warning in the early autumn is quiet and restful, assuring and inspiring, but we all know it is inexorable. There is very little disregard of these warning notes and when it occurs the penalty is either extreme suffering or death.

After autumn will come winter and again, in nature's never failing cycle, will come spring and life and activity—the seed time, the awakening of all nature. The tiny insects will come again, in their myriads, the birds will return from the south land, build new homes and raise another family.

Thus the great plan goes on unfailingly. It is with the individual life that the changes occur. Who of us among nature's living creatures, content and confidently entering the shadows of autumn will be missing when the awakening comes in the springtime.

There is just a hint of more serious warning in the deep golden sunshine, in the shadows of the autumn moonlight and in the rustle of the wind through the trees that some time we will be missing when the springtime comes, but that too is a gentle warning and carries with it the same confidence that no matter what the change may be—all is well.

Needing Attention

Now that we have our new streets, traffic signal pedestals at busy street intersections, promise of some little better, though not much better, Baltimore & Ohio railroad crossings and many other betterments, our other needs seem to stand out more prominently than before.

First, of course, among our evident needs, is that one for new sidewalks in the business sections of the city. Then comes the need to mow the weeds growing in many of the grass plots from four to six feet in height, rankly luxuriant and the need to get about the work of cleaning, and keeping clean, our streets.

The South Main street bridge approaches have become precipitous. Crossing the bridge over a floor which cost the taxpayers several thousand dollars after traveling over a costly new paved street means to bump up and bump down a step. Someone is responsible and that someone should be made to correct conditions which would not exist if someone had not done work carelessly.

These are little things, but big enough to be exceedingly annoying and big enough to demand and receive attention. Let's keep at the work of betterment until we are through.

The County Fair

This week the county fair is in full swing. Locally it holds the attention of Fayette counties to the exclusion of all other activities save those added amusement "attractions" which are supplemental to the big feature.

We all realize that the styles of fairs have changed a great deal during the last fifteen years. They have become more local universities where information in matters pertaining to the farm and the home can be obtained and with enough amusement to be restful and enjoyable.

The big thing now days at the fairs is the opportunity to acquire knowledge and meet with fellow workers. The local fair is a success in the new style county show. The size of the attendance attests the people's approval.

POETRY FOR TODAY

LOVE AND LIFE

Most men know love but as a part of life;
They hide it in some corner of the breast,
Even from themselves; and only when they rest
In the brief pauses of that daily strife,
Where with the world might else be not so rife,
They draw it forth (as one draws forth a toy
To soothe some ardent kiss-exacting boy)
And hold it up to sister, child or wife.
Ah me! why may not love and life be one?
Why walk we thus alone, when by our side,
Love, like a visible god, might be our guide?
How would the marts grow noble! and the street,
Worn like a dungeon floor by weary feet,
Seem then a golden courtway of the sun!

BAKER DEFENDS
ARTICLE TEN
OF THE LEAGUE

Columbus, Ohio, August 18.—Formal announcement of his purpose to discuss during the presidential campaign "some of the objections" which have been urged against American participation in the league of nations was made to day by Secretary Baker of the war department, speaking before the Ohio State Democratic Convention.

"When the suggestions based on partisan feeling have been swept aside," Mr. Baker said, "there remain but two or three points which really deserve serious consideration. The most important of these is that which is addressed to Article Ten of the Covenant, which article the president has said, is the heart of the whole matter."

Asserting that the whole question hinged upon Article Ten, Mr. Baker devoted himself to discussion of that section of the Covenant, saying that he did not believe that there could be any league or peace or disarmament without "the equivalent of Article Ten in the Covenant accepted as a common peace and obligation by nations of the earth."

"Those who criticize Article Ten," he said, "misread into it some sort of fear that it places the military power of the United States at the disposal of the council of nations and will require American armies to be sent overseas to enforce guarantees of article ten without the consent of the American people; but there is nothing in article ten which seeks to change the power given by the constitution to congress alone to declare war."

Without article ten, Mr. Baker said the league is vain, while with it, "the league becomes a great, modern, civilized agency" working to bring the world into "just relationship."

MEMOIR

William H. Plymire, son of John and Margaret Plymire, was born in Clinton County, Ohio, February 27, 1846, and died at his home on South Fayette street, in this city August 10, 1920, aged 74 years, 5 months, and 13 days.

On December 24, 1867, he was married to Mary E. Sever, and to this union were born four children, Frank of Sandusky, Ohio, John and Mrs. Wert Wilson, of this city and Luther, who died January 4th of this year.

Almost half a century ago, Mr. Plymire moved to this county where he has, ever since, been prominently identified with its growth and development. A farmer by choice, he was one of the most successful and progressive, and his farm home a model of thrift and neatness. He was a man of splendid business qualifications, heartily in accord with all public improvements and exercised judgment and honesty in the discharge of his duties as Trustee and High Way Superintendent in which capacity he often served Union Township. Two years ago, his health failing, he gave up active work on the farm and moved to this city.

When the Civil War broke out he, at the age of 18 loyally responded to the call for volunteers and faithfully followed the flag until honorably discharged. He was active in G. A. R. and lodge circles and at the time of his death he was a member of Temple Lodge I. O. O. F. and Chaplain of B. H. Millikan Post G. A. R.

Since his boyhood days he has been a sincere and consistent Christian, at the time of his death holding a membership in the Sugar Grove M. E. Church.

Besides the children above mentioned he leaves his wife, five brothers, Samuel, Philip, and David Plymire of Sabina, Ohio; Joshua of Goldsmith, Indiana and Martin Plymire residing in this county; two sisters Mary Hogue of Guthrie, Oklahoma and Susanna Plymire of Sabina, Ohio; Six grandchildren, two great grandchildren and a wide circle of friends and acquaintances who will greatly miss the pleasant smile and cordial greeting of one who has so long and so honorably lived among us.

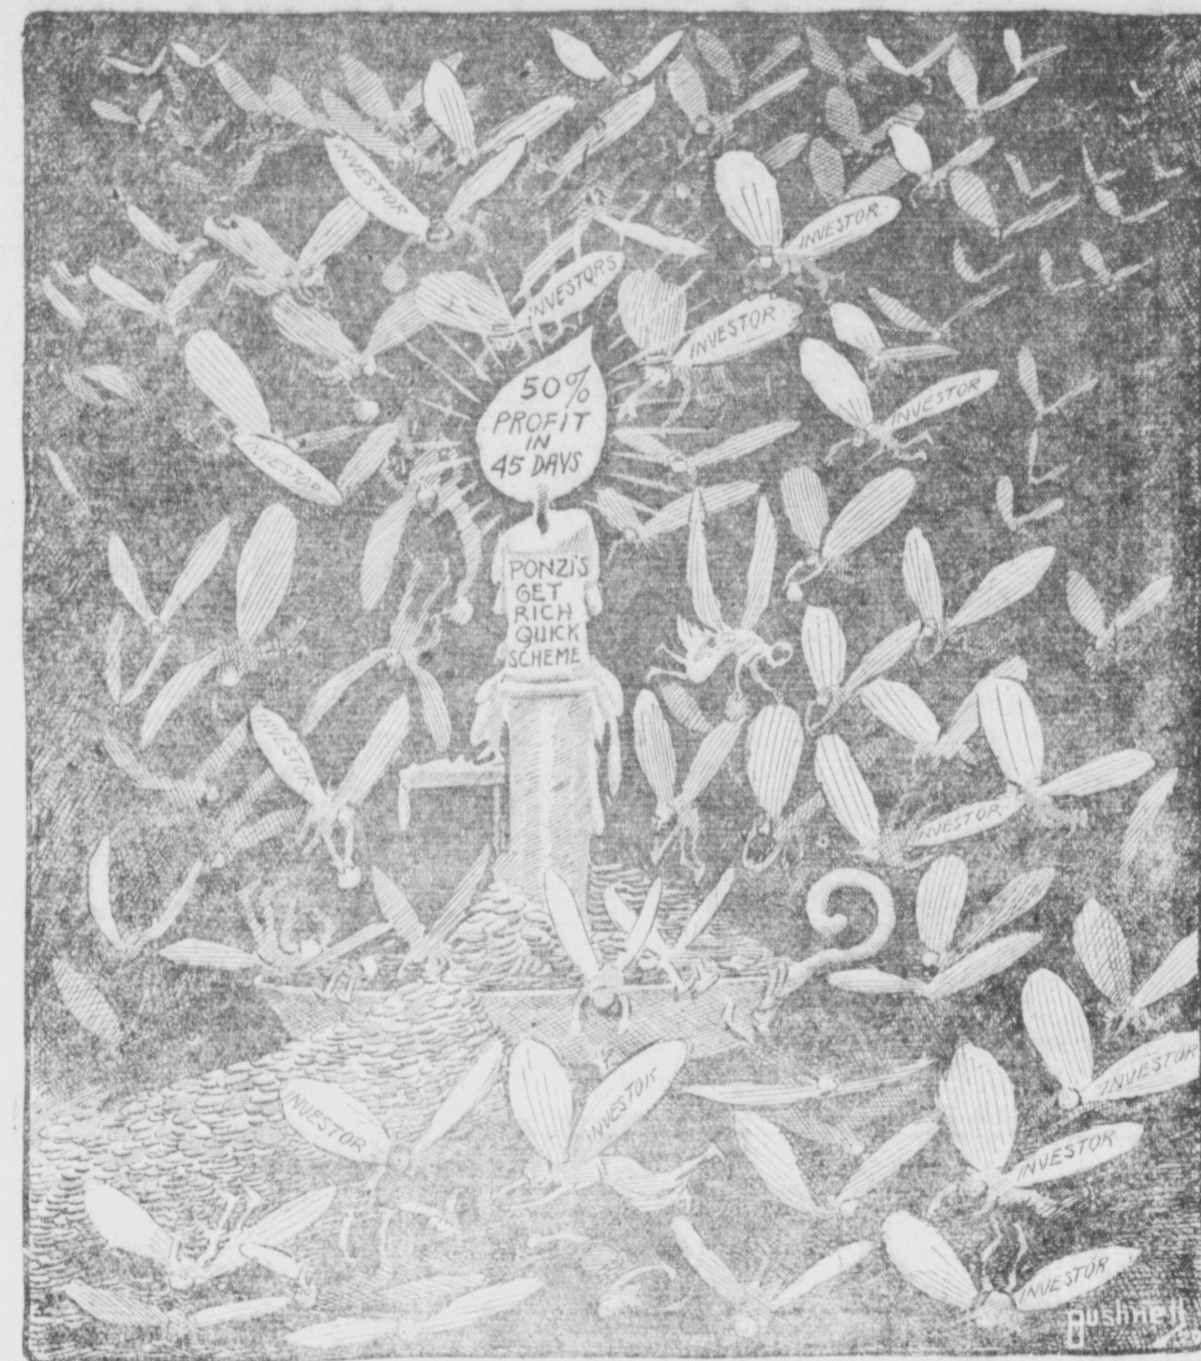

CARD OF THANKS

The family of the late William H. Plymire acknowledge with grateful appreciation the kindness of friends in their recent bereavement.

DEATH CLAIMS
ON EOF FAYETTE'S
OLDER RESIDENTS

The death of Mr. Benjamin Franklin Jamison occurred, after an illness of several weeks, Wednesday night at nine o'clock, at the home on the Leesburg pike, two and a half miles from town and will be learned with regret by a widely extended circle of relatives and friends.

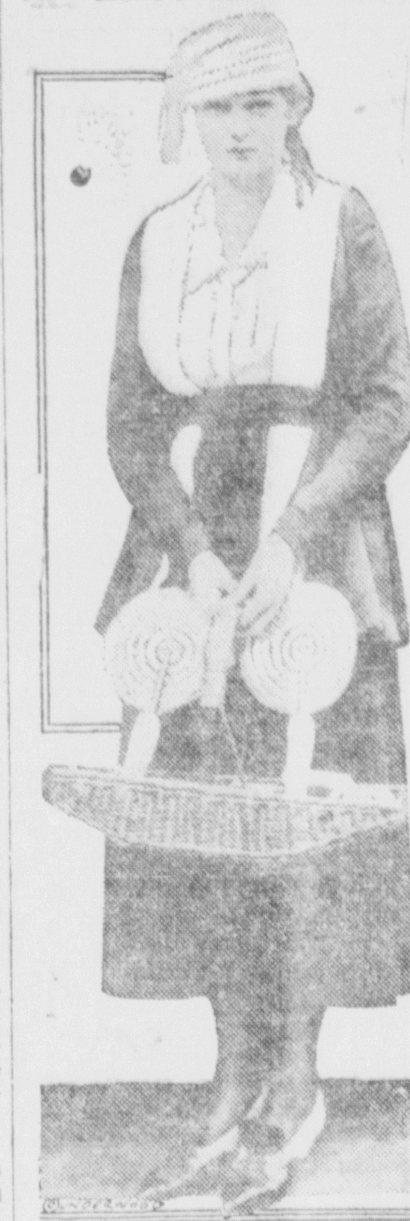

This death removes one of the prominent older citizens of Union township, a successful farmer and stock raiser, whose material success was coupled with honor and integrity and who enjoyed throughout his entire useful life an enviable place in the esteem of the community.

Mr. Jamison was 86 years old and had passed his whole life on the same farm, his birth occurring in a house standing on the same spot where he later erected his present handsome home. He retained health and faculties to a remarkable degree and was one of those interesting octogenarians who recall the experiences of earlier days to the delight of the younger generations. His cordiality and kindness to friends were marked characteristics.

On September 12, 1865, Mr. Jamison was united in marriage to Miss Emily Jane Taylor, who survives him. One of a family of eight children, his father Jacob Jamison, coming to this section from Kentucky when he was a tiny lad, he is survived by a number of nephews and nieces, among them Jacob Jamison of this city, Zecariah, near Leesburg, William, of Springfield. Mr. B. F. Jamison, of this city, a great nephew, has been closely affiliated with his uncle in his business affairs.

Funeral services will be held Friday afternoon at 2 o'clock, Rev. Alexander officiating. Burial will be made in the Washington cemetery.

SADDLE CLASS

An innovation in the fair program of Wednesday afternoon which delighted spectators and added a picturesque feature to the racing card was the ladies saddle class and riding contest of four divisions. Although the number of entries was not as large as had been expected, the excellent horsemanship displayed by the young women and the high class of the riding horses shown made the exhibition well worth while.

Mr. Ross Long, of Delaware, acted as judge.

The blue ribbon winner, Brenton, owned by Fred C. Jones, is a Morgan horse, a splendid animal, shown for the first time.

Montgomery K., owned by Glenn H. Brock, and awarded the red ribbon, a magnificent looking animal, has been a big prize winner, taking the ribbons at a number of the metropolitan horse shows.

The street paving work is now moving forward in good shape, with the asphalt virtually completed on North Fayette street, and the alleys along the Dahl-Campbell Branch have been finished.

RECEIVES A CARD
FROM HIS BROTHER
NOW IN WARSAW

Plenty to Eat and Drink in Warsaw at the Time of Writing, in Message.

Louis Kaufman, proprietor of the Bargain Store on West Court street, has received word from his brother, Isidor Kaufman, Wilmington store manager, who left a few weeks ago for a visit in Poland, that he has arrived in the war stricken country.

While the word received from the brother is written on a postal card and must necessarily have been short he states that conditions were not so bad as the people in the states believed and that he had plenty to eat and drink and he had been having a fine trip. However, the card was written nearly a month ago and the capital, Warsaw, was not threatened by the Bolshevik hordes at that time.

Before reaching Poland, Mr. Kaufman and party touched at a number of places of interest in Europe and their plans calls for a tour of many other countries before they return.

No. 22569 Judge of the Probate Court

The brother in this city expects to hear at more length concerning Poland's plight since the conditions have become such that the attention of the world has been centered on the defense against the Russian forces.

PREPARING PROGRAM
FOR THE INSTITUTE

Fayette County Rural and City Teachers Will Meet in Five Day Session.

In recognition of the fact that within ten days the annual institute of the school teachers of Fayette county will be held in the auditorium of Washington High School, the teachers elected to position in the school rooms in both the rural and village districts are studying up their vacation either in their homes or industries and are preparing to attend the institute August 30th to September 3rd.

It will be the first time that the city and the rural and village instructors have joined in holding the institute and as result of more concentrated effort the program is expected to give wide scope to the field of education.

For the reason that the institute is the result of co-operation on the part of both sets of teachers and leaders the attendance this year will probably be greater than ever before.

Superintendent O. S. Nelson is working on the program for the five days and it will be given publicity the first of the week, is the announcement of school officials.

HAND ORGAN MAN
AND 'DA MONK

One of the sights appearing on the streets during fair time is an organ grinder and a monkey, the first visiting this city in years.

The grinder, who was of foreign birth gave his name as Gleecangoe at the Mayor's office when he applied for a license and he showed a discharge from the United States Army that bore out his statement of two years service.

The object of interest was the "da monk" who doffed his tiny cap every time he gathered in a coin.

LEADERS IN RACE FOR PENNANT IN THE AMERICAN LEAGUE

One of the greatest pennant races ever pulled off in the American league is now in progress. The Cleveland Indians still hold first place, but the New York

Yankees and Chicago White Sox are right at their heels. Left to right in the picture, front row: Stanley Coveleskie, Richard Niehaus, Chester Thomas, Guy Mor-

ton, Jack McCallister, John Grane, Ray Chapman, Charles Jameson, Joe Wood, Steve O'Neill. Back row: George Uhle, Elmer Myers, Robert Clark,

Manager Tris Speaker, Ray Caldwell, Leslie Numamaker, R. Ellison, Tony Faeth, Jim Bagby, George Burns, Elmer Smith, Wambach, Lunte and Gardner.

G. O. P. PLAYING SHELL GAME SAYS CANDIDATE

(By Associated Press)

Butte, Montana, August 18.—President Wilson put one over on Premier Lloyd George of Great Britain in the distribution of voting strength in the league of nations, Franklin Roosevelt declared in an address here today.

"The Republicans are playing a shell game on the American people," the nominee declared, "because they are still busy circulating a story that England will have six votes to America's one."

"It is just the other way," Mr. Roosevelt said, "as a matter of fact, the United States has about 12 votes in the assembly."

He said that Haiti, San Domingo, Panama, Cuba, and Central America, who have at least 12 votes in the league are all regarding Uncle Sam as their guardian and that this country would have practically all their votes in the league.

SAYS WETS' LAST HOPE GONE

Washington, August 19.—According to Wayne B. Wheeler, the last hope of the wets went glimmering when Tennessee ratified the federal suffrage amendment. The result he says, is of momentous importance as affecting the future of prohibition. As he and the other dry leaders see it there is no longer any doubt that the next congress will be a dry congress which will hold every inch of ground that prohibition has gained.

SENATOR HARDING TALKS TO INDIANS AND DUMPER JACKS

(By Associated Press)

Marion, O., August 18.—Polities to make the nation self reliant in material things, as well as governmental affairs were advocated by Senator Harding in two short speeches here today.

The Republican nominee spoke first to a group of Indians who brought to him a plea for extension of their legal rights. He replied that the United States might do well to "humanity and idealism" on the continents race rather than "to waste American lives trying to make sure of that bestial thousands of miles across the sea."

The second address was delivered to the local lumbermen's Association and was a plea for a forest conservation policy that would insure a timber supply to meet domestic needs and thus raise the standard of American housing conditions.

RACE RESULTS ON WEDNESDAY FAYETTE FAIR

The class of racing staged at the Fayette County Fair Wednesday left nothing to be desired in the way of exciting finishes. No race went in straight heats.

No only was the racing of the superior sort but the fact that no race was taken in consecutive heats added much to the enthusiasm shown by the unusual attendance in the stands for the first day's events.

Thursday promised to excel Wednesday's races in both the number of contestants and the time made as both the 2:11 and the 2:13 paces were well filled with high class horses. Among these were Power Patch, who has to his credit a mile in 2:03½; Pat II who raced here years ago showed his ability to pace the local track better than 2:10. The 2:20 trot will have ten starters, including the great trotter Exile Mack. The 2:13 pace will have nine starters.

SUFFRAGETS ARE BUSY IN JAPAN

Tokio, (By Mail)—The advocates of universal suffrage in Japan have not abandoned the struggle and are frequently holding mass meetings in behalf of the project. The speakers

denounce the government for turning against the will of the people who, they assert, demand an immediate general franchise.

The House of Representatives was dissolved early this year following attempt of the opposition party to introduce a general franchise bill. At a subsequent election the Seiyukai or government party obtained a clear majority.

ARMY PAYMASTER FACING CHARGE

Mexico City, (By Mail)—Proceeding against 48 army paymasters are actually pending in federal district courts, involving the disappearance since 1914 of more than 2,000,000 pesos of army funds, according to The Excelsior, which quotes Eduardo Neri, attorney general. The attorney general, it is stated, is desirous of pushing these cases and demanding the extradition of those missing paymasters known to have sought refuge in other countries.

NEW YORK TROLLEY RUNS WILD

A "front entrance" street car having one man for motorman and conductor, jumped the track on the Kingsbridge road, New York city, a few days ago. After knocking down a telephone pole the car stopped against the front porch of a dwelling house. The "crew," William H. Girdes, was only slightly hurt.

Every Tire Is Signed

Two men sign every Miller Tire—the maker and the inspector. Both are penalized if a tire comes back.

Under this method, defects have become extremely rare. Not a tire came back for adjustment to many Miller dealers last year.

Over 1,000 tires yearly are worn out in Miller factory tests.

All the best rival tires are constantly compared with the Miller, with these results:

Millers now excel all rivals, both in average and in uniform mileage.

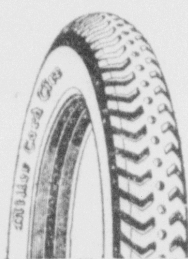

Miller treads outwear rival treads by 25 per cent on the average.

Miller Cords average 15,000 miles—Miller Fabrics from 8,000 to 9,000 miles—in rear-wheel tests under extreme conditions.

You will gain a new idea of modern tires when you test a new-type Miller. Get one now and watch it. The super-service of the Miller Tire is now everywhere discussed.

JEFFERSONVILLE STREETS SOAKED WITH CRUDE OIL

Condition of Village Streets Constitute Menace to Travel. Autoists Cut Around Town.

Jeffersonville has literally drenched itself in crude petroleum. In a laudable endeavor to allay the dust on the streets the citizens of Jeffersonville have commenced at the extreme corporation line and soaked every street with oil until the streets of that prosperous village are nothing but a mass of sticky, ill-smelling, black and slippery filth.

Travelers on the highways are giving Jeffersonville a wide berth, cutting around it whenever possible. The condition of the streets is a real menace to vehicle drivers, it being almost impossible to prevent skidding. Several narrow escapes from serious tragedy have been reported by autoists passing through and not knowing of conditions in time to pass around the town.

The mistake was made in putting too much slumy oil on the streets and in putting it on every one of the streets of the village, leaving no escape from the annoyance and danger. Jeffersonville business is suffering in consequence of the mistake made by the authorities.

REMARKABLE RECOVERY

Extraordinary Curative Power of Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa. "I want to let you know what good Lydia E. Pinkham's Vegetable Compound has done me."

I had organic troubles and am going through the Change of Life. I was taken with a pain in my side and a bad headache. I could not lie down, could not eat or sleep. I suffered something terrible and the doctor's medicine did me no good at all--my pains got worse instead of better. I began taking the Vegetable Compound and felt a change from the first. Now I feel fine and advise any one going through the Change of Life to try it, for it cured me after I had given up all hopes of getting better. You can publish this and I will tell any one who writes to me the good it has done me."—Mrs. MARGARET DANZ, 1525 N. Alder St., Phila., Pa.

It hardly seems possible that there is a woman in this country who will continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

LUCKY STRIKE

TOBACCO

The one special thing that makes you like Lucky Strike—in a cigarette or pipe—is this entirely different flavor of toasted Burley tobacco.

Nature has made Burley tobacco perfect—almost. Toasting finishes the job.

Toasting seals in the Burley flavor. Toasting closes the pores in each leaf. The Burley flavor can't come out except when you light your cigarette or pipe. Heat seals it in, heat releases it.

(You know the way a bee works on honey. Seals in all the delicious honey with a coating of wax. Same principle.)

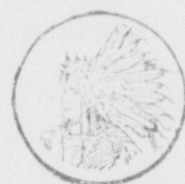

It means something to you to have the original Burley flavor on hand when you want it.

Try Lucky Strike and see for yourself how toasting makes the flavor delicious.

WEEKLY WEATHER AND CROP REPORT

Issued by the Ohio Weather Bureau and the Bureau of Crop Estimates For Week Ending August 14, 1920.

WEATHER. The temperature for the week slightly subnormal and the rain fall not only frequent but generally heavy to excessive. In some sections of the State the rainstorms were attended by high winds that did considerable damage to crops. The sunshine was much below normal and very inadequate. The rains retarded threshing but were beneficial to corn, potatoes, and pastures.

CORN. Growing nicely with promise of heavy yield.

WINTER WHEAT. Threshing retarded by wet weather of past week. Some reports of wheat growing in shock.

OATS. Nearly all cut and quality good. Owing to wet weather threshing progressing slowly.

RYE. Quality good; very little threshed.

POTATOES. Early crop excellent. Recent rains beneficial to late crop which promises a good yield.

HAY. Fair to good. Crop about all harvested.

FRUIT. Apples about half crop; peaches fair to good.

TRUCK CROPS. Generally good.

PASTURES. Improved by recent rains.

The Parlor.

ing a literal present day application of the old song "They Kept the Pig in

the News:

"The lands of the 'old country' where they sometimes entertain the family's hogs in the cellars of the house, have nothing on Chillicothe or did not until recently, according to members of the health department who have helped to rid the city of this nuisance.

"Inspectors when put upon the scent, and a distinct one at that, were often surprised to note the evident popularity and high social standing of that porcine animal commonly designated as 'the hog.' No place was too good for the big porkers, and consequently the inspectors found hogs in almost every room usually provided in a house.

"They found hogs in cellars, hogs in attics, hogs in bedrooms, hogs in kitchen, hogs in semi-bath rooms and hogs right in the sitting room. In fact, in one house, the official found two beautiful fat hogs right in the parlor. The inspectors did not go so far as to say that luxurious divans and sofas were provided for the aristocratic butcher's fodder, but such scenes can steadily be pictured with the aid of but a small bit of imagination.

"However, these officials declare that such scenes are a thing of the past for Chillicothe because all hogs have been ordered out, are out, and will continue to stay out of the city from this time forth and forevermore. Consequently the city will be forced to rest on its past fame rather than on its present cleanly condition."

JUDGE POULTRY AND SWINE OF BOYS AND GIRLS

Expert Finds Difficulty In Placing Ribbons Upon Exhibits in Pig and Poultry Club Classes.

Club Work Attracts Unusual Interest at County Fair.

Guy Dowdy, representative of Ohio State University and expert judge of swine and poultry, judged the exhibits of the Boys' and Girls' Pig and Poultry Clubs and awarded first, second, and third prizes. Judge Dowdy expressed the greatest satisfaction for the exhibit and said that the work of judging an exhibit so evenly matched

was particularly difficult when all entries were "prize winners."

In both the swine and the poultry departments the showing was splendid and was proof of the amount of work and energy expended by both the club workers and the leaders.

Under the personal supervision of Mrs. Frank E. Haines, superintendent, and Miss Maudie Cox, the club leader, each boy or girl worker in the clubs had worked toward one end, that of making the showing at the Fair an exceptional one. Mrs. Haines and Miss Cox left nothing undone during the summer to keep the interest of the clubs active and made frequent trips among the workers.

Awards in the Swine exhibit in the different classes were as follows:

Duroc
 Hugh Clifton, first; Donna Straley, second; Marion Rodgers, third; Carl Ellison, fourth.

Poland China
 John R. Clifton, first; Roger Creamer, second; Harold Klever, third; Charles Clifton, fourth.

Spotted Poland China
 Malcolm Parrett, first; Rollin Silcott, second.

Hampshire
 Esther Spears, first; Dora Spears, second; Grace Miltrons, third; George Eckle, fourth.

Championship—Richmond Klever; score 827.

There was equal interest in the poultry club work and the awards were made as follows:
